

Conrade's Class Newsletter

Jan. 19, 2016

Reading

Starting this quarter, we will be studying mysteries. We will be investigating what makes a good mystery. We are also still in the process of completing our TRC reading assessment. This will help determine which guided reading group is best for your child. We will also continue working on our research project on a holiday we chose. **Lastly, don't forget Thursday at 10:30 is our Idiom Museum. This is the time for parents to come and see their classes idioms. Don't forget your costume that morning.**

Math

In math, we will be continuing our study of area and perimeter. This Friday, Jan 22, the students will have a test over area and perimeter. It will cover how to solve for the area and perimeter of shapes, how to find the missing side, word problems, and decomposing shapes. Please keep practicing those multiplication facts, as they will help with area.

Reminders

Please make sure your child wears a coat on mornings when it is cold. We will try to go outside, unless the weather is below freezing. **The classroom is in need of glue sticks, highlights, tissues, germ-x, and games for indoor recess.**

Important Dates

- Thursday, Jan. 21 is Idiom Day 10:30 is the time for parents to come and see our classes.
